Climate Migration

The Next Big Thing?

TRANSIRE

d.i.e.

Deutsches Institut für
Entwicklungspolitik German Development
Institute

Alarmist voices predict climate change to result in several hundred million „climate refugees“.

What are such estimates based on?

Who is a „climate refugee“ and how are climate change and migration interlinked?

Where are all these people headed?

And how should we approach climate migration in the future, both from a research and a policy angle?

The German Development Institute and the Uni Bonn Research Project „TransRe“ welcome everyone interested to learn more about the interconnections between climate change and migration to join this open panel discussion.

Entrance is free, no registration necessary.

Speakers will include:

- Lori Hunter (University of Colorado, Boulder, USA);
- Patrick Sakdapolrak (University of Vienna, Austria);
- N.N. (Federal Ministry for Economic Cooperation and Development - BMZ / Deutsche Gesellschaft für Internationale Zusammenarbeit - GIZ);
- N.N. (NGO, to be confirmed);
- Benjamin Schraven (German Development Institute - DIE-GDI, Germany) (Moderator/ Facilitation)
